# Forward Looking Statements

This document includes "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are not statements of historical fact, but instead are based on certain assumptions including statements with respect to the Company's beliefs, plans, objectives, goals, expectations, assumptions, and statements about future economic performance and projections of financial items. These forward-looking statements are subject to known and unknown risks, uncertainties and other factors that could cause actual results to differ materially from the results anticipated or implied by forward-looking statements. The factors that could result in material differentiation include, but are not limited to the impact of bank failures or adverse developments of other banks and related negative press about the banking industry in general on investor and depositor sentiment; the remaining effect of the COVID-19 pandemic on general economic and financial market conditions and on public health, both nationally and in the Company's market areas; natural disasters, including the effects of Hurricane Helene; expected revenues, cost savings, synergies and other benefits from merger and acquisition activities might not be realized to the extent anticipated, within the anticipated time frames, or at all, and costs or difficulties relating to integration matters, including but not limited to customer and employee retention, might be greater than expected; goodwill impairment charges might be incurred; increased competitive pressures among financial services companies; changes in the interest rate environment; changes in general economic conditions, both nationally and in our market areas; legislative and regulatory changes; and the effects of inflation, a potential recession, and other factors described in the Company's latest annual Report on Form 10-K and Quarterly Reports on Form 10-Q and other documents filed with or furnished to the Securities and Exchange Commission - which are available on the Company's website at [www.htb.com](http://www.htb.com) and on the SEC's website at [www.sec.gov](http://www.sec.gov). Any of the forward-looking statements that the Company makes in this document or the documents the Company files with or furnishes to the SEC are based upon management's beliefs and assumptions at the time they are made and may turn out to be wrong because of inaccurate assumptions, the factors described above or because of other factors that management cannot foresee. The Company does not undertake, and specifically disclaims any obligation, to revise any forward-looking statements to reflect the occurrence of anticipated or unanticipated events or circumstances after the date of such statements.

# Appendix – Non-GAAP Reconciliation

In addition to results presented in accordance with generally accepted accounting principles utilized in the United States (“GAAP”), this document contains certain non-GAAP financial measures, which include: the efficiency ratio; tangible book value; tangible book value per share; net income, EPS, ROA, and return on average tangible common equity (ROATE) as adjusted to exclude transactions which management does not consider to be reflective of “core” financial results. Management has presented the non-GAAP financial measures in this document as it believes including these items provides useful and comparative information to assess trends in our core operations while facilitating the comparison of the quality and composition of our earnings over time and in comparison to our competitors. However, these non-GAAP financial measures are supplemental, are not audited and are not a substitute for operating results or any analysis determined in accordance with GAAP. Where applicable, we have also presented comparable earnings information using GAAP financial measures. Because not all companies use the same calculations, our presentation may not be comparable to other similarly titled measures as calculated by other companies.

Set forth is a reconciliation to GAAP of our efficiency ratio:
